Article 7. Gordon S. Dow moved that this Article be passed as read. It was so voted.

Article 8. After Robert A. Southworth gave approximate figures, explained advantages of installing two-way radio equipment in the Chief of Police's automobile, and read portions of a letter from Colonel Caswell of the New Hampshire State Police stating that he would be very pleased with such an addition to the North Hampton Police Department, Mr. Southworth moved that the town raise and appropriate a sum not in excess of \$550.00 for the same.

As all Town expenditures over \$500 are to be voted upon by ballot, the Moderator declared the ballot open and after everyone present had been given the opportunity to cast his vote, the ballot was closed and the moderator read the results. Total votes cast: 181; Yes 157. No 24. It was voted to adopt Article 8 as read.

Article 9. Maurice Kierstead made a motion that this article be accepted as read. William P. Fowler asked Mr. Kierstead if he would amend his motion to read as follows: That the town install a street light near the residence of Mr. and Mrs. Vernon Seavey on Atlantic Avenue and that cost of same be paid from the General Appropriation of Street Lighting Funds. William P. Fowler moved that the Town approve the budget figure. Gordon S. Dow requested that the 1954 appropriation for the Fire Department be increased by \$200 in order to provide the Fire Department with gas masks, thus making the Fire Department appropriation \$7,500. Mr. Dow asked Mr. Fowler if he would amend his motion to include the increase and Mr. Fowler agreed.

The moderator read the revised figures of \$51,651.11 and it was voted that \$51,651.11 be appropriated for the expense of the Town for the ensuing year.

Mr. Robert A. Southworth, upon request of Mrs. James A. Eastman made a motion that the zoning inspectors be given the power to determine and fix a minimum distance between street lights and that no new street lights be installed between the minimum distance. It was a vote.

Mr. James F. Leavitt moved and it was voted that the Town Road Agent be authorized to increase the hourly wage for his employees from \$1.00 an hour to the prevailing wage.

Gordon S. Dow requested that any money received by the Town from the sale of cemetery lots be turned over to the Trustees of Trust Funds and the income thereof be spent for upkeep of the cemetery. William P. Fowler questioned the legality of such a move without an article in the warrant for the same and a motion was made that it be inserted in the 1955 Town Warrant. It was a vote.

Raymond O. Hobbs stated that the road running between Elm road and North Road is known by several

names, the name for it on the 1953 revised Town Map being Cow Lane. He made a motion that the Chair appoint a committee of three to look into and consider the renaming of Cow Lane and for the committee to report at the next Town Meeting. It was a vote.

Mrs. Gertrude Hobbs suggested that the Selectmen take note and see that the sign at the head of Walnut Avenue be changed from Road to Avenue as Walnut Avenue is its correct name.

Mrs. Frederick E. Scott made a motion that the same committee looking into and considering the renaming of Cow Lane also look into the matter of Woodland Road and Little River Road. It was a vote.

Gordon S. Dow moved that the meeting be adjourned and it was so voted.

The meeting adjourned at 8:15 P. M.

Respectfully submitted,

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of North Hampton:

I herewith submit to you my twenty-fifth report as Superintendent of your schools.

The schools of North Hampton began the current year on Monday, September 14, 1954, with an enrollment of 213 pupils in grades one through eight. This compares with the corresponding figure of 185 the previous September and 163 for the year 1951-1952. The growth in pupil population is shown by the listed September enrollments for the past five years.

1950	1951	1952	1953	1954
145	163	163	185	213

The people of North Hampton are to be congratulated upon the completion of their new addition to the school building. The added three rooms have allowed a room for each grade and taken the second grade out of the temporary basement room. The room that is vacated is being used by the teachers and pupils as a visual aids room as well as occasionally for music and rhythm activities. This leads to a more efficient use of the room without confusion resulting when home rooms are so used.

The new rooms are attractive, well lighted and of sufficient size to enable our teachers to adopt modern procedures of instruction. Grades one and two are self-contained with toilets and washing facilities just off the rooms themselves. This arrangement leads to better teacher control and more homelike surroundings for our littlest children. A school library in the elementary school is now considered a necessity. The building now provides a small room for this purpose. As books are received for this library its value will become increasingly evident. The new ceiling in the lunch room not only makes for a

more attractive atmosphere, but also increases the foot-candles of light in the room.

We are particularly pleased with our teaching staff this year. Under the leadership of Mr. Theodoras the teachers are a unified group, working together for the progress of our children from grade to grade. The staff is composed wholly of teachers with a number of years experience. From this experience North Hampton is reaping the benefits. It is my desire that the district do all in its power to retain the present staff.

North Hampton is one of the two districts in Union No. 21 to employ a remedial teacher. Such a service is of real value to our pupils. Pupils working with this teacher receive the incentive of individual help. When the teacher of any grade becomes aware of the difficulties experienced by a certain pupil, that pupil is referred to the remedial teacher. His troubles are analyzed. With this analysis it is often possible to correct the difficulties and return him to his class. Otherwise the pupil may become more and more maladjusted as he progresses through his school life.

I am recommending that the Rinehart system of handwriting be adopted in the school. By this method an expert penman will visit our children each month, present lessons, conduct classes and evaluate progress. The alphabet used is nationally standardized, composed of easily formed letters and attractive to read. This system has been approved in many schools of New England. Its value has been proven by results achieved wherever it has been introduced.

The enrollment in the North Hampton School is now so large that the duties of the Principal require a great deal of time. A program should be adopted whereby definite periods would be assigned for administration of the building.

This can best be accomplished by establishing a de-

partmentalized schedule for the upper grades. A schedule of this kind has additional advantages above that of providing for administration. Departmentalization allows each teacher to instruct in those subjects for which he is best prepared. It allows a continuity of progress since each pupil will study the same subject with the same teacher throughout the years so departmentalized. You as a board have given this organization consideration. It is my recommendation that it be adopted.

North Hampton is entitled to federal funds because of the large number of pupils whose parents work on federal property. In the main, this applies to those working at the Newington Bomber Base and the Portsmouth Naval Base. On the basis of costs for the past complete school year, the local district received \$5,112.96 as reimbursement for the last school year. Application has been made for such aid during the present school year and acknowledgement of the application has been received from Washington. It is probable that a substantial part of our entitlement will be in the treasurer's hands before the end of the present school year.

It is interesting to note that the total federal funds received in Union No. 21 amounted to \$38,139.73.

The North Hampton Parent-Teacher Association is dedicated to the welfare of the children of the district. Such a group furnishes the nucleus of interested public support for the welfare of our schools. Its generous contributions toward the purchase of library books proves its desire to help in the most effective manner. The encouragement of athletics and other extra curricula activities is definitely an asset to the educational program. I bespeak the membership in this organization of every parent and every citizen of the district.

That the people of North Hampton may know how their school dollar is spent, the following data has been established. Figures are taken from statistics of the year 1953-1954, the last completed school year.

The division of the school dollar is reported below. This is based upon the Financial Report for the year ending June 30, 1954.

North Hampton has a school that is well organized and efficiently operated. The building is modern, attractive and well constructed. It is clean and orderly. The teachers and pupils form a happily busy group. The school is their chief interest and to it they give their best effort.

May I again express my appreciation to the School Board of North Hampton for advice and hearty cooperation given me in the work of the past year.

Respectfully submitted,

ROY W. GILLMORE,
